

# KSET24FO

Stackable splice trays for 24 heat shrinks

## UNIK ✓

- ✓ For up to 24 fiber and 24 fusion splices with 40/45mm or 60mm sleeves
- ✓ Facilitates and protects fusion connections using pigtailed
- ✓ RoHs compliant

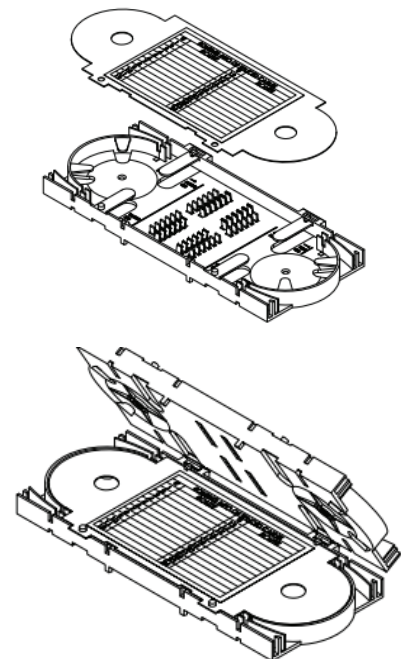

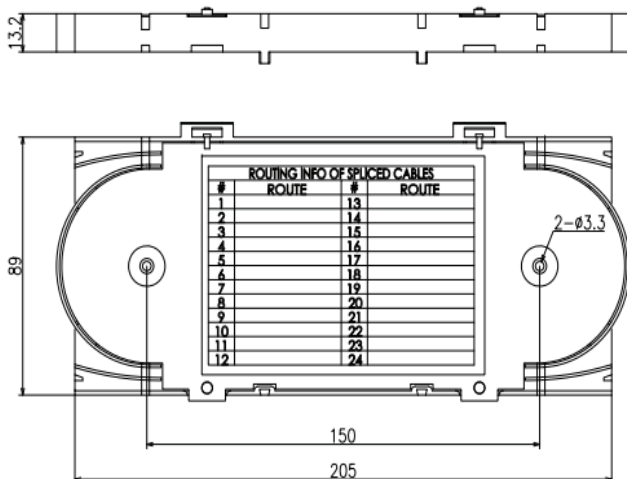

## THE PURPOSE

The UKN splice trays KSET24FO is designed to facilitate and protect optical fiber connections through fusion splicing in high-density environments such as optical drawers and wall-mounted enclosures. It provides a compact, stackable solution for organizing and securing up to 24 fusion splices or 36 mechanical splices, ensuring efficient management and access to optical fiber networks.

## THE STRUCTURE

Size : (L)205mm x (l)89mm x (P)13.2mm

Materials : White - ABS

# KSET24FO

Stackable splice trays for 24 heat shrinks

## PURCHASE INFO

Item	Designation	Conditionnement
KSET24FO	Stackable splice trays for 24 heat shrinks	Eco-box of 1p

## EXTRAS

### KSPLICE60MM

Splice protection heat shrinks 60mm

### KPIGxxxxxxMEF

Pigtails 2 meters eco friendly
