SC Duplex Adapter Twin Core with short flange

UNIK ✓

- ✓ Compact Design with short flange
- ✓ High-Precision Alignment
- ✓ Durable construction
- ✓ Integrated Mounting Clips

THE PURPOSE

The UNIKKERN SC twin-core adapter with a short flange is designed to connect two SC duplex connectors, facilitating efficient fiber optic connections. Its compact design with a reduced flange size allows for higher-density installations, optimizing space within patch panels and enclosures. Equipped with zirconia ceramic alignment sleeves, it ensures precise mating of connectors, resulting in low insertion loss and reliable performance.

The adapter's lightweight and durable construction, often featuring integrated mounting clips, enables easy snap-in installation, simplifying the setup process.

THE STRUCTURE

Mode	Housing Color
SM/PC	Blue RAL 5015
SM/APC	Green RAL 6018
MM	Beige RAL 9001
OM3	Aqua RAL 6034
